**For additional information, contact the NH Fire Academy at
800-371-4503 or 603-271-2661.**

RESCUE SYSTEMS

Information Sheet

COURSE DESCRIPTION:

Rescue Systems classes is a program that was developed by the California Office of Emergency Services in conjunction with the National Fire Academy. Rescue Systems classes is an intensive 6-day program that includes hands-on techniques that emphasize what is covered in the classroom.

Day 6 of the program will include a structural collapse scenario that entails breaking and breaching concrete, lifting and rigging, technical search techniques, emergency building shores, rope rescue, and scene management.

This program will be taught by instructors who are experts in their respective areas and are also members of the Beverly, Massachusetts-based FEMA USAR Team MATF-01. You will not want to miss this program as it is one of the most challenging held at the New Hampshire Fire Academy.

Lunch will be served daily and is included in the tuition cost. Students are on their own for breakfast and dinner daily.

Students must be present throughout the entire program to be eligible for certificates of completion from the National Fire Academy and the New Hampshire Fire Academy.

NH PREPAREDNESS UPDATES

For questions/assistance:

Bill Wood, Preparedness Coordinator, NH Bureau of EMS
(603)-271-6539 X 230/NH: 1-866-552-2661 X 230

bwood@safety.state.nh.us

JULY 2007

EMERGENCY RESPONDERS HOT WEATHER PREPAREDNESS

The International Association of Fire Chiefs (IAFC) provides the following suggestions:

- ❖ Keep hydrated. Drink lots of water, on duty and off duty. Have drinking water available on all emergency vehicles. Urge personnel to drink plenty of water before coming on duty.
- ❖ Avoid soft drinks, sugary liquids or caffeinated beverages.
- ❖ Encourage personnel to get plenty of rest while off duty.
- ❖ Urge personnel to report any symptoms of dehydration, heat cramps, heat stroke or heat exhaustions.
- ❖ Establish a rehabilitation center at major incident scenes, preferably under a tent or in a shaded area.
- ❖ Set up an extra fire hose line to provide a place or personnel to cool off.
- ❖ Request extra personnel to major events to provide adequate relief for exhausted crews.
- ❖ Limit outdoor exercise.

More information about extreme heat can be seen at:

<http://www.fema.gov/hazard/heat/index.shtm>

US DEPARTMENT OF LABOR OCCUPATIONAL SAFETY & HEALTH ADMINISTRATION (OSHA)

“Hazard Exposure and Risk Assessment Matrix for Hurricane Response & Recovery Work”

The OSHA website (www.osha.gov) has a new section outlining the various activities involved in hurricane response and recovery. The information provided is applicable to any storm situation and covers the following topic areas:

- ❖ Building assessment, Restoration and Demolition
- ❖ Community Support and Public Health Services
- ❖ Infrastructure Repair and Restoration
- ❖ Operation specific Activity Sheets
- ❖ Restoration of Maritime Infrastructure and Water-related Activities
- ❖ Waste/Debris Removal and Reduction

The “Hurricane eMatrix” material is relevant to EMS as the majority of storm-related injuries occur during the recovery phase of operations.

Dartmouth College Develops Program for Terrorism Response Training

Dartmouth's Interactive Media Laboratory (IML) has launched a new, videogame-based training program for emergency responders featuring simulated terrorist attacks using weapons of mass destruction.

The program, called "Ops-Plus for WMD Hazmat" is the first course of IML's Virtual Terrorism Response Academy (VTRA). The course provides more than 16 hours of training to handle CBRNE (chemical, biological, radiological, nuclear and explosive) emergencies.

Individual Copies of "Ops-Plus" are \$35 and can be purchased through the National Fire Protection Association (NFPA).

More information about IML and VTRA is available at:

<http://iml.dartmouth.edu/vtra/>

EMERGENCY SERVICES RESPONDERS SAFETY & HAZARDS AWARENESS BEST PRACTICES

Nadine Levick, MD, MPH, Chair and CEO of the Objective Safety web site has developed numerous resources for use by EMS leaders, owners and operators, to examine their safety history, promote provider safety and hazards awareness. Free, downloadable resources are available at:

www.ObjectiveSafety.net/index.html

SUSPICIOUS ACTIVITIES CHECKLIST

The Emergency Management and Response – Information Sharing and Analysis Center (EMR-ISAC) suggests emergency services personnel maintain "situational awareness" for suspicious activity in the area of commercial or municipal emergency facilities.

Suspicious activities can include:

- ❖ Extended loitering by unidentified individuals near facilities
- ❖ Unexpected appearance and work by contractors without clearance
- ❖ Unscheduled package deliveries by unidentified individuals
- ❖ Uncooperative behavior by individuals challenged by appropriate authority
- ❖ Unauthorized/unscheduled property removal
- ❖ Surveillance by unidentified individuals
- ❖ Object/packages positioned near facilities by unknown individuals
- ❖ Unattended backpacks, boxes and containers left in public areas
- ❖ Suspicious packages showing wires, antennas, batteries, metal or plastic pipes
- ❖ Rental vehicles parked in unusual locations without prior authorization

Activity concerns should be reported to local law enforcement as soon as possible.

“EMERGENCY SERVICES PERSONNEL FAMILY PREPAREDNESS RESOURCE”

EMR-ISAC maintains that critical infrastructure protection begins at home for all citizens, but particularly for law enforcement, fire service and emergency medical services families.

First responder providers will function more effectively during a long-term incident if they know the following key information is included in their family emergency plan:

- ❖ contact information for immediate family members
- ❖ pre-established primary and alternate sites for family locations
- ❖ current family health and medical needs recognized and pre-planned solutions

Federal Government Resources: www.ready.gov or 1-800-237-3239

“DIRECT PURCHASE OPPORTUNITY” AUTOMATED EXTERNAL DEFIBRILLATOR (AED) DEVICES

Lifesaver, Inc. of Fairfield, New Jersey was the successful AED vendor for the final Rural EMS AED Grant Round. The DEFIBTECH DDU-1200 Lifeline AED is being made available for \$709 per device (includes AED, battery, 1 set adult defib pads and carrying case).

Any New Hampshire organization is eligible to purchase any quantity of the above devices. For ordering information, please contact: Lifesavers, Inc. at (973) 244-9111/

For NH AED related questions, please contact Bill Wood at (603) 271-4568

MASS CASUALTY INCIDENT (MCI) PROVIDER TRAINING PROGRAMS

The Bureau of EMS is coordinating 4-hour mass casualty provider training sessions.

The program utilizes the updated New England Council for EMS “Step Up to Mass Casualty Incidents” CD-ROM format to provide the foundation for MCI management of emergency responders. The entry-level MCI training covers 4 areas of MCI scene management:

1. Transition from Day-to-Day EMS to MCI Horizontal Triage
2. Four levels of MCI triage
3. EMS in the Incident Command System
4. Pediatric Enhancements for Mass Casualty Incidents

For further information, contact: Bill Wood, Preparedness Coordinator
NHBEMS (603)-271-6539 X 230/NH: 1-866-552-2661 X 230

“PANDEMIC INFLUENZA PLANNING: A GUIDE FOR INDIVIDUALS & FAMILIES”

U.S. DEPARTMENT OF HEALTH & HUMAN SERVICES

The document is a new tool to help Americans understand the threat of pandemic influenza and specific actions they can take to protect themselves and their families.

The guide is available at www.pandemicflu.gov

***15th New Hampshire
North Country
Emergency Medical Services
Conference***

WHEN: **October 18-21, 2007**

WHAT: 4 Full Days of EMS education, networking, and even some fun!

WHO: EMT's, Paramedics, Firefighters, Police, First Responders, Dispatchers, Nurses, Emergency Managers, and Ski Patrollers.
EMS families are welcome!

WHY: A great opportunity to get continuing education credits.

WHERE: The Attitash Grand Summit Hotel & Conference Center
at: Attitash/Bear Peak, Bartlett, NH just off Rte 302.

Ways to Register: Brochures and on-line registration, at
www.littletonhospital.org will be available this Summer.

Keynote Speaker: Ken Bouvier, a nationally recognized and published authority on EMS

Any questions call Kurt Lucas, Conference Executive Director at:
(603) 444-9205.

Providers Needing BLS Refresher Training Programs and BLS Practical Exams before **September 30, 2007**

Please be advised that the New Hampshire Bureau of EMS (NHBEMS) neither recognizes, nor authorizes out-of-state refresher training programs and/or “on line” or distance learning programs.

Per Saf-C 5900, in order to become eligible for NH BLS practical exams, a person must successfully complete a training program that is authorized under a NH licensed EMS Instructor / Coordinator, and must be conducted in an interactive learning environment. Anyone taking out-of-state or “on-line” refresher training programs run the risk of not meeting practical testing entry criteria. When signing up for training programs, we urge you to ask your instructor for the NH course number. BLS refresher training programs carry the following prefixes: First Responder refresher training #15 – XXX, and EMT-B refresher training #35-XXX.

The NHBEMS is also advising all providers who are recertifying by September 30, 2007 and are in need of a BLS practical exam to call the NHBEMS as soon as possible for scheduling. Practical exam requests for September scheduling will be given the same 30-day consideration as all other exam requests. Please be advised that this may not meet your recertification and/or reregistration deadline needs. Recertification / reregistration / relicensing are individual responsibilities and we encourage all providers to plan for this in a timely manner. Thank You.

NEW HAMPSHIRE FIRE ACADEMY

Division of Fire Standards and Training and Emergency Medical Services

We have established an electronic mailing list and will be sending periodic updates on news, events and new courses that the Division will be sponsoring.

If you would like to receive electronic updates from the Division please go to

<http://maillist2.nh.gov/mailman/listinfo/fstemsnews>

Fill in your information and you will be added to the mailing list.

For Departments that receive the Division's monthly mailing, they will need to sign up for the mailing list due to the Division moving towards only producing the electronic version

FIRE INSTRUCTORS AND OFFICERS ASSOCIATION OF NEW HAMPSHIRE

Presents

Rapid Intervention isn't Rapid: Finally a Solution

Date: October 11, 2007
Time: 0830-1630 hours
Where: NH Fire Academy, Concord, NH
Cost: \$75 per student; includes lunch & breaks
\$65 for FIOANH members

Synopsis:

On March 14, 2001 the Phoenix Fire Department lost Firefighter Brett Tarver at the Southwest Supermarket fire. During the extraordinary rescue effort there were more than 12 additional mayday's issued by firefighters, and one other firefighter (attempting to rescue Tarver) was removed in respiratory arrest. Immediately following this tragic event the Phoenix Fire Department began reviewing its SOP's and fireground practices in an attempt to prevent such a tragic event from happening again.

This presentation will highlight the results of five years of hard work, research, training, operational changes and dedication to the challenge of removing one of our own from such a catastrophic event. The conclusions that have been developed can be used by both career and volunteer fire agencies.

The presentation will use an interactive format during the class to increase the participants learning experience.

About the Instructor:

Steve Kreis has been a member of the Phoenix Fire Department for 32 years. He started in 1975 as a firefighter, promoted through the system and has been in his current position as Assistant Chief for nine years, which included six years as head of the Emergency Services Division.

He has a Bachelor's Degree in Political Science and a Masters Degree in Public Administration from Arizona State University. He is also an adjunct instructor at Phoenix College and Arizona State University in the Fire Science Curriculum.

Chief Kreis is a member of the Fire Department Instructor's Conference (FDIC) Advisory Committee and served on the International Fire Service Training Association (IFSTA) Executive Board for eight years. He has written numerous articles for Fire Engineering Magazine and is a member of many other professional and civic organizations.

FIRE INSTRUCTORS AND OFFICERS ASSOCIATION OF NEW HAMPSHIRE & New Hampshire Association of Fire Chiefs

Present

"Beyond Hoses and Helmets"

Strategy and Tactics of Leading a Volunteer or Combination Fire/Rescue Organization

Date: September 22 & 23, 2007
Time: 0830-1630 hours
Where: NH Fire Academy
222 Sheep Davis Road, Concord, NH
Cost: \$50.00 per student; includes lunch & breaks

Synopsis:

Pierce Fire Apparatus and the Volunteer and Combination Officers Section (VCOS) of the International Association of Fire Chiefs are pleased to offer an educational training course designed by practicing chief officers that delivers real world expertise through an interactive educational experience. The course is titled *"Beyond Hoses and Helmets – Strategy and Tactics of Leading a Volunteer or Combination Fire/Rescue Organization."* The United States Fire Administration and the National Emergency Training Center provided technical support in the development of course material and supporting documents.

The support offered by Pierce Fire Apparatus allows VCOS instructors to present this course throughout the nation in an effort to support the VCOS mission - *to provide chief officers who manage volunteers within the fire/rescue/delivery system with information, education, services and representation to enhance their professionalism and capabilities.*

"Beyond Hoses and Helmets" offers instruction in the following areas:

1. • Problem solving
2. • Marketing
3. • Recruitment
4. • Retention
5. • Leadership
6. • Team Building
7. • Training Development
8. • Conflict Resolution
9. • Principles of Negotiation
10. • Verbal Communications

PERFORM. LIKE NO OTHER.

This seminar is made possible through the VCOS Leadership Initiative sponsored in partnership with Pierce Fire Apparatus.

About the VCOS:

Our vision is to be the leading international organization with sustained performance in representing the interests of the professionals who staff Volunteer and Combination Fire Departments. We will be a dynamic organization, characterized by our integrity, customer focus, membership growth, the value placed on people and superior application of technology. We will be the best at generating and applying new ideas and learning faster than other organizations. Visit us at www.vcos.org. Course application attached or visit www.fioanh.org.
